

COMMUNICATING HAS NEVER LOOKED BETTER. OR BEEN EASIER.

MOTOTRBO™ SL 7550 ACCESSORIES

From the concierge desk to the convention center, MOTOTRBO™ digital radio solutions keep you instantly connected and in control with an incredibly sleek and light digital radio for discreet communications. Our SL 7550 radio has professional business capabilities, like enhanced work order ticket management, vibrate alert, covert mode and large, full-color display, to empower you like never before.

SL 7550 accessories enhance your professionalism – with forward-thinking features like integrated Bluetooth® and Intelligent Audio – so you can remaster your productivity and image. That's why it's critical to choose the only accessories certified to perform best with MOTOTRBO radios.

ENHANCE MOBILITY WITH INTEGRATED BLUETOOTH®

Whether hotel staff is responding to guest requests or a security team is covering a special event, sharing information instantly, easily and seamlessly is critical to your business. So we embedded Bluetooth® audio right in our MOTOTRBO radios to make communications even more convenient. Our exclusive Operations Critical Wireless earpiece handles loud environments while an optional wireless push-to-talk (PTT) links to any earpiece to enable more covert communications. Just put the PTT in a pocket or on a lapel and connect instantly.

MOVE FROM HECTIC TO HUSHED

Our SL 7550 radio offers a smart feature – Intelligent Audio – that adjusts radio volume to fit the environment's noise level. Intelligent Audio also works with select audio accessories, giving your workforce even more communication flexibility.

Connect an SL 7550 accessory and the Intelligent Audio automatically adjusts radio volume and filters out background noise, drastically improving the level of audio clarity. Now your employees won't miss a call at a bustling banquet or disturb others when they move into a quiet hallway.

FACT SHEET

MOTOTRBO SL 7550 SERIES ACCESSORIES

TALK COMFORTABLY AND COVERTLY

Our swivel earpiece and single-wire surveillance earpiece are small, sleek and powerful, so your employees can communicate easily wherever they walk and talk.

The transparent coiled cord and rubber earbud on the surveillance earpiece offers greater discreetness for security personnel. The flexible-fitting swivel earpiece is comfortable, even for extended shifts. Both earpieces have an inline microphone and push-to-talk, making communication easier and unobtrusive.

Add compact carrying accessories – like a swivel carry holder or a lightweight wrist strap – and you've got flexibility and comfort that meets the needs of the busiest people on your team.

THIN IS IN – FROM BATTERIES TO CHARGERS

From the standard cell phone-sized batteries to the micro-USB charger that plugs directly in the wall, we designed our SL Series accessories with portability, professionalism and convenience as our top priorities. Both the standard and high-capacity batteries are so slim and lightweight that it's easy to carry spares.

Our unique multi-unit charger merges high power with high image, too. You can charge six radios simultaneously and recharge a battery in the top slot whenever a radio is removed. This charger is both functional and sleek in design.
